

You can buy a kit of all the non 3D printed parts at my Etsy store:

<https://www.etsy.com/shop/PotentPrintablesShop>

This is cheaper than buying the raw supplies which are listed below. The raw materials would give you enough material to build 6x Cell Phone Sketchers, but has a higher total cost.

	<i>Description</i>	<i>QTY to Order</i>	<i>Amazon Affiliate Link</i>	<i>Notes</i>
Required Parts	Conductive Stylus	1	https://amzn.to/2zi5hvc	Package contains 8x
	Pen springs	1	https://amzn.to/2RWSV2A	OR use a spring from any spring loaded pen. Be sure to cut to size per assembly instructions. Package contains 20x springs
	Jumper Wire	1	https://amzn.to/2Dle9OJ	Package contains jumpers of various sizes.
	Silicone sheet	1	https://amzn.to/2RZqD7w	This is for a 12in x 12in x .063in sheet, so you can make a number of Mats and Feet out of this.
	JB Kwik	1	https://amzn.to/2q7U4IQ	OR use any 2-part Epoxy. Super glue may work also.
Apple Phones Also Need This Item	Wrist Strap	1	https://amzn.to/2Ftd2Eg	Recommend buying this for all phones, if you want to ensure your phone will sense the stylus.
Helpful Item	5/64in (0.078in) Drill Bit	1	https://amzn.to/2OMGDrC	Drill bit for cleaning up hole stylus goes into
Nostalgia	Classic Etch-A-Sketch		https://amzn.to/2qRQUZZ	
* PLEASE read the assembly instructions before ordering anything. Apple phones will need an additional part (wrist strap) for this device to work.
